Unit Mini-Project | Intro to Computational Innovation

Research a computational innovation and explore multiple way data is used and the impacts it has on economy, society, or culture

Name	
Computing Innovation	
Primary Link	
Secondary/Tertiary Links (2 links must be articles)	
Summary (1 well-written paragraph)	
How is data consumed, produced, or transformed	
Storage, security, or privacy concerns relate to the data from above	
Two positive social, economical, or cultural impacts about the innovation	
Two negative social, economical, or cultural impacts about the innovation
